

Elevator Shutdown Report

Date	Device Type	Rationale
01-Feb	Passenger Traction	Ropes have jumped on Counter Weight Sheave
01-Feb	Barrier Free	Low Pressure switch not working
01-Feb	Passenger Traction	Car Door Restrictor does not work
02-Feb	Barrier Free	Mast not secured
02-Feb	Freight Elevator	Anti-creep not functioning
02-Feb	BF Vert Encl.	The Battery system for E light and alarm bell isn't functioning.
02-Feb	Escalator	Anti reversal will not engage switch. Brake torque below manufacturer specifications.
02-Feb	Passenger Traction	The Counterweight Buffer switch assembly is severely damaged
02-Feb	Passenger Traction	The Rear Car Door Restrictor does not work.
08-Feb	BF Vert Encl.	Manual lowering mechanism does not engage to lower the lift.
07-Feb	BF Stair Pltfm	Failure of the lift to operate in the down direction when the platform is in the folded-down position.
09-Feb	Passenger Traction	Emergency Alarm bell and phone not working
09-Feb	Escalator	Adjust the Brake to Manufacturers Specifications/ Repair anti reversal to ensure proper operation.
10-Feb	BF Vert Encl.	No cab lights, no emergency lights, no alarm bell.
13-Feb	Passenger Hydro	Corrosion of Hydraulic Lines in the Pit. Corrosion of the Overspeed Valves in the Pit. Missing Low-pressure Switch.
13-Feb	BF Vert Encl.	Low pressure switch not working
14-Feb	Passenger LULA	Failure of the Rear Car Door Interlock
14-Feb	Passenger Traction	Failure of the Rear Car Door Interlock
14-Feb	Passenger Hydro	Non operational Slack Rope Switch
14-Feb	Escalator	Broken Drive Chain switch not working
14-Feb	Pass Roped Hydro	Repair Hydraulic Oil Leak in Hoistway.
		Category 5 Testing past due and not completed as per Elevator Service Provider Declaration submitted to AEDARSA (DAO) attested to be completed December 2022.
14-Feb	Escalator	Anti reversal will not engage switch.
14-Feb	Passenger Hydro	Emergency light and alarm bell are not working and no phone in elevator.
14-Feb	Passenger Hydro	Non operating emergency light/alarm bell and non operating in car telephone
14-Feb	Escalator	The lower left hand skirt switch was not functioning.
14-Feb	Escalator	The upper right hand skirt switch was not functioning.
15-Feb	Passenger Traction	Car Door Restrictor does not work
15-Feb	Pass Roped Hydro	Excessive Hydraulic oil leak in Hoistway (piping and cylinders) and Hydraulic Control Valve in Elevator Machine Room.
15-Feb	Pass Roped Hydro	Hoist Ropes are undersized with rouge present.
15-Feb	BF Vert Encl.	The wire rope suspension means is badly damaged with large sections of wires/strands broken and pulling out of the rope, this is evident at at least 3 separate locations on the rope.
21-Feb	Passenger Hydro	The emergency alarm bell and 2-way communication non operational.
23-Feb	Pass Roped Hydro	Car Door Restrictor does not work
23-Feb	Passenger MRL	Governor overspeed switch was not functioning.
23-Feb	Passenger Hydro	Car Door Restrictor does not work
24-Feb	BF Vert Encl.	Non operating car stop switch
25-Feb	Escalator	Antireversal non operational
27-Feb	Escalator	Broken Step Coupler, No Step to Skrit Indexing, No Cat 1 tests in 2022
27-Feb	Escalator	Machine brake failed to function, SSPI not completed, No Cat 1 tests in 2022
27-Feb	Escalator	Machine brake failed to function, SSPI not completed, No Cat 1 tests in 2022
27-Feb	Escalator	Machine brake failed to function, SSPI not completed, No Cat 1 tests in 2022
27-Feb	Escalator	Step to step gap at risers not meshing. Broken/chipped step treads.
27-Feb	Passenger Hydro	Car Door Restrictor was partially removed from the car door.
27-Feb	Passenger Traction	The emergency phone does not work and there is no alarm bell button
27-Feb	Passenger Traction	car door restrictor was partially removed from the car door.
28-Feb	Escalator	Broken step treads
28-Feb	BF Roped Hydro	The car safeties do not mechanically engage.
28-Feb	Freight Hydro	Relief valve seal was cut.
28-Feb	Escalator	Missing step device not functioning. Comb teeth broken.
28-Feb	Escalator	Step to step gap larger than code allows. Non functioning anti-reversal device.
		Brake torque does not meet manufacturers specifications. Broken comb teeth.
